## Who Should Attend

The Joint Training Seminar for Kansas adult care home providers and KSFMO healthcare staff was created as the result of the cooperative efforts of the long-term care associations and the Office of the State Fire Marshal. KACE is pleased to offer this one-day session virtually for long-term care professionals to safely attend.

## Continuing Education

**Administrators and Operators** - This event is approved for up to 6.5 continuing education clock hours for Kansas licensed adult care home administrators and registered operators by the Kansas Department for Aging and Disability Services (LTS# A1427) in the core area of Administration.

**Nurses** - CNEs will be available for nurses.

## Learning Objectives

At the completion of this program, the participants will:

- Identify the needs of older adults in an emergency setting and explore how organizations and the community can help to increase the preparedness and resiliency of older adults during an emergency
- Build community relationships for information sharing, resource sharing and increased communications that will assist during and emergency event through regional planning
- Identify gaps in relationships and resource sharing specific to COVID-19
- How to start your disaster training beginning with NIMS (National Incident Management System)
- Utilizing NHICS ( Nursing Home Incident Command System)
- Creating your HVA (Hazard Vulnerability Assessment) tailored to your facility's needs
- Know the top fire safety citations in adult care facilities with a view toward lessening their prevalence
- The importance of unified messaging, cross-training, communications, planning resources, and relationships building during an emergency
- How and what your local emergency manager can do for your facility at the local and state level
- Emergency management disaster response efforts to COVID-19
- COVID-19 Future Planning
- Defining health care coalitions and their role during COVID-19 and other emergencies
- Identifying critical contacts to establish prior to an emergency
